Cairo University

Faculty of Computers & Artificial Intelligence

Information Systems Department

**Internet Applications Fall 2019-2020**

Assignment #2

Requirements:

1- First, You need to build a page called index.html. This page contains 2 divs.

1ˢᵗ div is

About us in nav bar

2ⁿᵈ div is

About Us

Cairo University

**Faculty of Computers & Artificial Intelligence**

Information Systems Department

Internet Applications Fall 2019-2020

The content of about us is in another file attached in the assignment folder called about.html

"What you need is to extract data from about.html and put it in the suitable place in index.html using ajax when pressing on button about us from the nav bar."

Final page must be like this:

Cairo University

Faculty of Computers & Artificial Intelligence

Information Systems Department

Internet Applications Fall 2019-2020

You should make the same design

Notes:
1. Name your project "YourGroup_YourID_WT_Ass1"
2. Compress the project then send it through the form. I will send it on acadox.
3. This assignment will be done individually
4. Deadline for this assignment will be Monday 13-04-2020 maximum by 12:00 pm.
